

Each child is invited to come, learn and share God's love in a way that is fun and challenging. Feeling this love, they can go forth knowing that they are a precious child of God sharing their faith for a lifetime.

Bible Treasures Program "Bible Bucks"

Children are encouraged to become familiar with the Bible and find treasures to store in their hearts by learning biblical truths to apply in their daily lives. Children have the opportunity to earn a Bible Buck each Sunday when they bring their Bible to Pathways and in other ways as they memorize or complete challenges that will enhance their knowledge of the Bible. Children may recite or turn in challenge work on Sunday morning at Pathways Assembly. As children earn and save Bible Bucks, they can redeem them on the first Sunday of each new rotation by choosing items from the Bible Treasure Box.

PATHWAYS

Rotation Sunday School

A kid friendly, Bible -based Church School program that celebrates children's different learning styles.

Designed for children in grades 2-5 who attend the 9:45 Sunday School.

Bible themes are taught in a four-week rotation, focusing on different aspects of the story each week.

Assembly begins at 9:45 a.m. with a video of the previous week's activities.

Children rotate with their grade-level flock to a new "adventure" each week.

Shepherds are Prayer and Care Partners who provide continuity and nurture for the children and travel with their flock to each rotation.

Thy Word Is A Lamp Unto My Feet and A Light Unto My Path.
Psalm 119:105

Truth Tours. INC

In the Name of Christ

In a historical setting, each child can learn more about the Bible and the truths which it teaches for living today.

SUNDAY MORNING LIVE

Through songs, drama, puppets, games, and dance, children learn more about the stories in the Bible and how rich their experience with Jesus can be.

How Great Thou Art

In a bright and exciting room, a child can put artistic talents to work or taste the foods of the Bible times as children learn more Bible truths.

HIS PATH.COM

In a futurist room, the student learns how exciting the Bible can be through computers and science.

Lord's Lab

Through scientific experiences children will see God at work in Bible stories and in our world today.
